

Pexx Contracted by Katy Police Department to Replace All Antenna Lines for Communications Radios

The Katy Texas Police Department has contracted Pexx to replace antenna lines for eleven communication radios with new and improved cable and infrastructure. The project is part of a new building and renovation project for the police department funded by the City of Katy Texas.

Pexx's fully staffed and equipped tower crew will be on site to switch radios over to the new dispatch center when the move to the new building begins in March 2007.

This project is the result of a continuing relationship between Pexx and the Katy Police Department (KPD) based on performance and trust. Pexx has furnished KPD with leading edge wireless communications and data/video networking capabilities that have greatly enhanced the security of the community of Katy Texas and the police officers that serve. Pexx continues to serve the KPD with leading edge technology and superior service.

About Pexx
